

INFORMATION LETTER BERESLIM

INFORMATION FOR PARENTS/CARE GIVERS WHO WILL USE BERESLIM AT HOME

What is Bereslim?

Bereslim makes animated picture books and online games that help children with their (language) development.

Bereslim is made together with researchers.

Bereslim does what works.

Bereslim consists of:

- **BereslimmeBoeken:** beautiful animations of well-known picture books. Children will learn more words and will understand the story better.
- Game **Samenslim:** children learn through play how to solve a problem well (effective task behavior).
- Game **Letters in Beweging:** children learn that a letter corresponds to a sound (phonemic awareness).

Benefits

- With 15 minutes of **BereslimmeBoeken** per day, children learn an average of 1000 new words per year. That is **2 to 3 times more** than with reading-out-loud alone.
- By playing the game **Samenslim**, children **can perform tasks better** by the end of group 2 than a child who has not played Samenslim.
- By playing the game **Letters in Beweging**, children **can read better** by the end of group 4 than a child who has not played Letters in Beweging.

How does it work?

- You receive an email from Bereslim stating that BereslimmeBooks and/or games are ready for your child.
- You log in, and your child can start playing and/or watching immediately.
- Your child's school or daycare will tell you what is expected (how often, when, etc.).

Login

- Your child can watch BereslimmeBooks and/or play games at home. **This is free.**
- You have given your email address to the school or daycare. Bereslim uses your email address to send you a username. You choose a password yourself. **Please do this within 7 days.**
- To log in, use the link in the Bereslim email or visit <https://next.bereslim.nl/login>
- DO NOT download the app from the App Store or Play Store.

Question(s)?

Ask your school or daycare. They can call or email us if they cannot assist you.

Still have a question for us? Go to www.bereslim.nl/help

Enjoy Bereslim!
